VARIABLE FREQUENCY DRIVE - RESIDENTIAL SERIES

OMEGA DRIVE

1/3 HP to 2 HP

Enclosure Options: NEMA 3R (Outdoor)

ALPHA DRIVE

2 HP to 7.5 HP

Enclosure Options: NEMA 3R (Outdoor)

Our **Residential Series** offers an affordable residential or light commercial VFD with either single or three-phase output capabilities easily configurable for home wells, irrigation systems, motor control, and soft start applications.

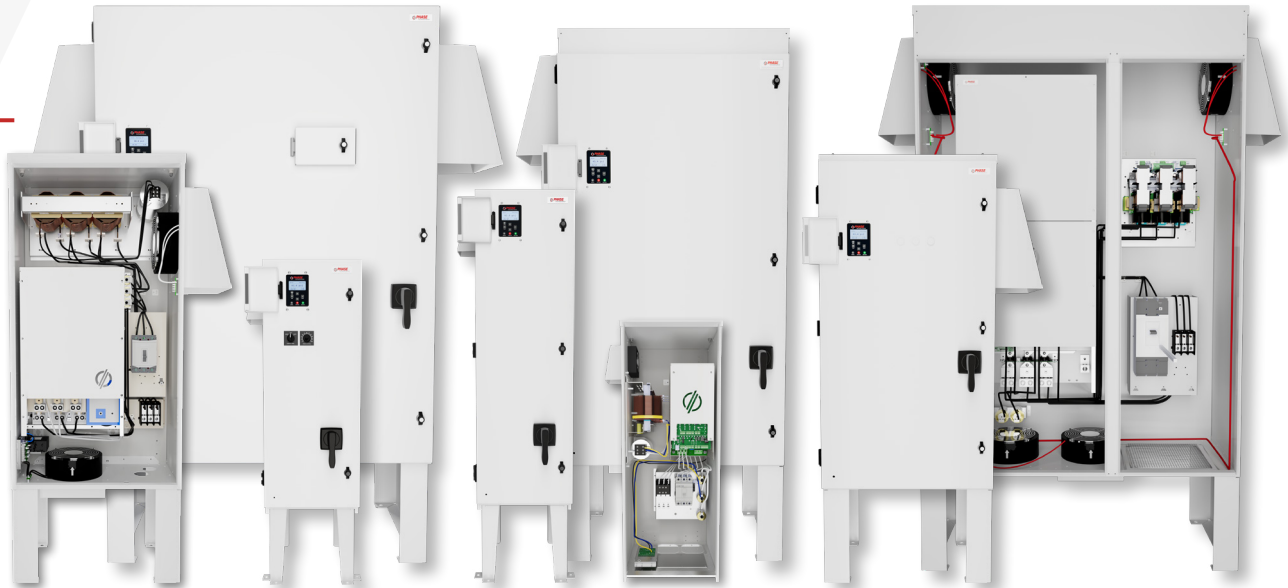

CONFIGURED PANEL - LOW HARMONIC VFD

1LH SERIES

5 HP to 200 HP

3LH SERIES

5 HP to 800 HP

Enclosure Options: NEMA 3R (Outdoor)

Our **Low Harmonic** VFD's are the solution to your motor control needs. Customize your unit in an enclosed panel configuration using our 508A panel shop. Take advantage of extra add-on components to increase efficiency and performance of your unit.

VARIABLE FREQUENCY DRIVE - LOW HARMONIC

LHX SERIES

5 HP to 500 HP

Enclosure Options: Open, NEMA 1 (Indoor)

Our **LHX Series** (VFD) featuring low harmonic technology for improved power quality, offers efficient phase conversion, enabling single-phase to three-phase power transformation, and includes voltage doubling capabilities to boost output voltage.

CONFIGURED PANEL - INDUSTRIAL VFD

2XD SERIES

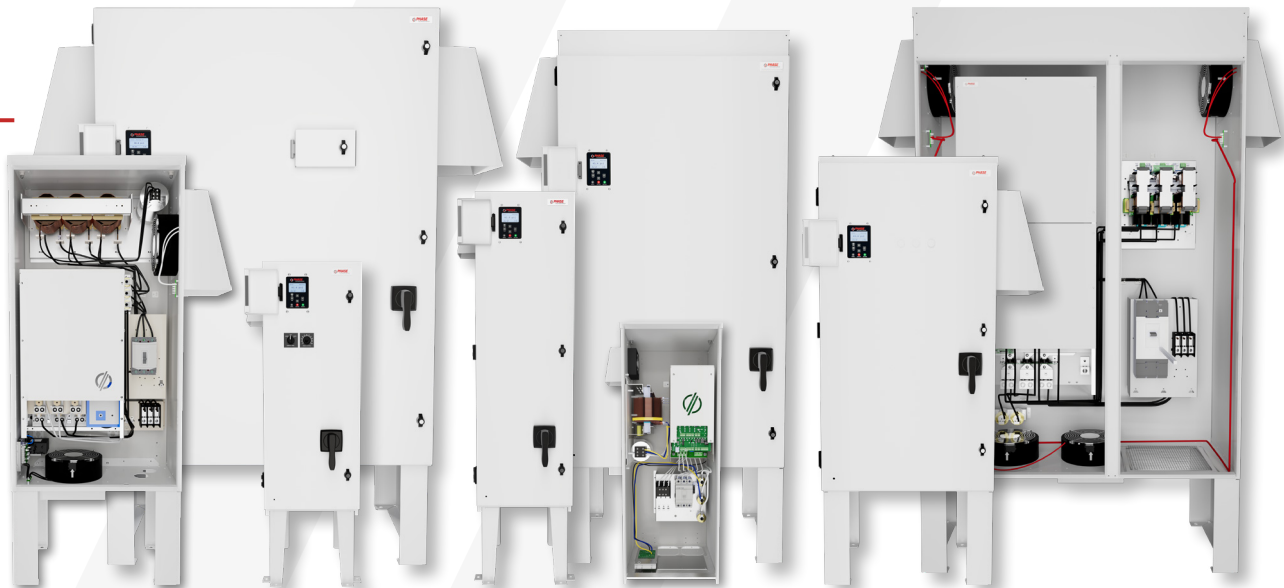

5 HP to 15 HP

SDX SERIES

5 HP to 75 HP

DX SERIES

5 HP to 500+ HP

Enclosure Options: NEMA 3R (Outdoor)

Our **Industrial** six-pulse VFD's are the solution to your motor control needs. Customize your unit in an enclosed panel configuration using our 508A panel shop. Take advantage of extra add-on components to increase efficiency and performance of your unit.

VARIABLE FREQUENCY DRIVE - INDUSTRIAL

DXL SERIES

5 HP to 500 HP

Enclosure Options: Open, NEMA 1 (Indoor)

Our **DXL Series** (VFD) is a high-performance VFD designed for controlling and optimizing motor speed in various industrial applications. With phase converting capabilities and 230V & 460V inputs available, your power needs are easily met across many industries.

DIGITAL PHASE CONVERTERS

PHASE PERFECT®

5 HP to 175 HP

Enclosure Options: NEMA 1 (Indoor), NEMA 3R (Outdoor)

PHASE PERFECT® offers an affordable, reliable, and easy-to-install solution that will power one or multiple three-phase loads. Our patented solid-state technology delivers power quietly, efficiently, and reliably to a wide variety of applications and equipment.

REDUCED VOLTAGE SOFT START

SS SERIES

5 HP to 250 HP

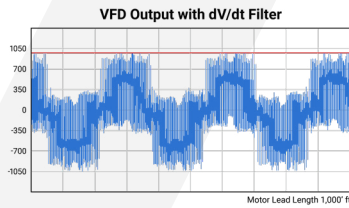

Enclosure Options: NEMA 1 (Indoor), NEMA 3R (Outdoor)

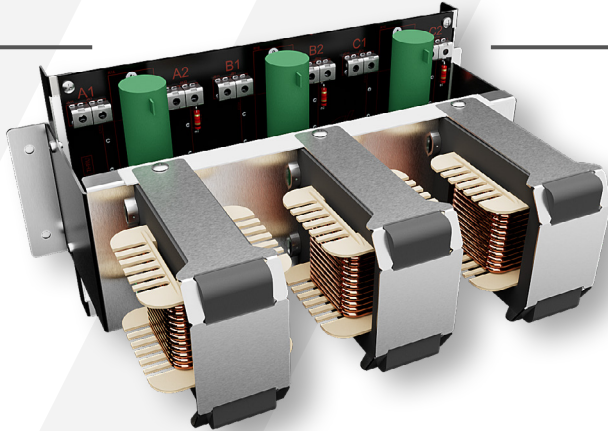

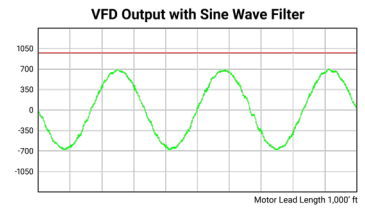

Our **Soft Starter** reduces inrush current and mechanical stress during startup, extending the life of your equipment. The SS Series ensures a gentle ramp-up to full motor speed—minimizing wear, improving reliability, and enhancing overall system performance and longevity.

MOTOR PROTECTION

DV SERIES dV/dt Output Filter

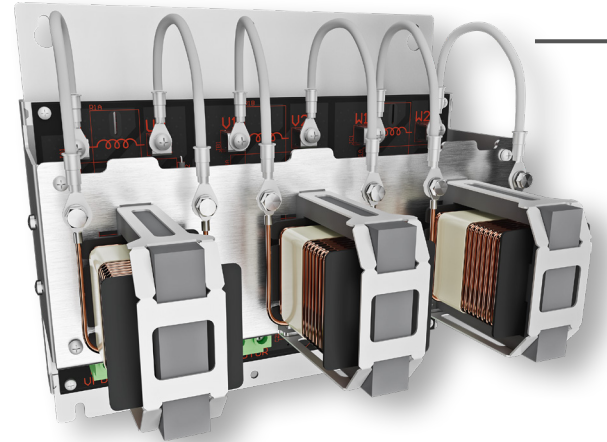

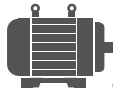

SW SERIES Sine Wave Output Filter

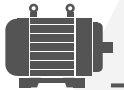

VFD to Motor Lead Length

 **0-800 ft**

VFD to Motor Lead Length

 **0-15,000 ft**

Our **dV/dt** and **Sine Wave Output Filters** are designed to extend the life of motors, bearings, and cable by reducing voltage spikes with superior peak voltage protection for long lead motor applications.

OUR MISSION

Relentlessly seek to provide Uncommon Value, solutions, innovation, and support for the industries that we serve.
